with chain in black box

NoiseCat Cast Glass

Storytellers

When evening descends and the people gather in the longhouse, Frog begins the accompaniment to stories told by the elders, earning the nickname 'storyteller.'

NoiseCat's frogs begin as a chunk of wood which he carves with adzes and chisels, many of which he has made himself. He then casts the piece in his kiln, using high quality Gaffer leaded and uranium crystal. The casting process is so precise that you can still see the grain of the wood and the tool marks in each piece.

NoiseCat BeesWax Bears

Bestseller!

These cute little bears will protect your cuticles and chapped skin, help your skin stay hydrated, and act as a natural exfoliator. As an antibacterial, beeswax has a long history of treating burns, wounds, and other skin issues.

They can even soothe symptoms of psoriasis and eczema.

Traditionally used by seamstresses, weavers, and bead-workers across the continent.
